

# Main Estimates memorandum (2020-21) for a **Water Services Regulation Authority**

## 1 Overview

### 1.1 Objectives

The Water Services Regulation Authority (Ofwat) support the regulation of the water industry in England and Wales as principally set out in the Water Industry Act 1991, Water Act 2003, and Water Act 2014. Ofwat is a competition authority principally under the Competition Act 1998 and the Enterprise Act 2002 relating to commercial activities connected with water or sewerage services in England and Wales. These are continuing functions from previous years and no new functions have been added.

Ofwat is funded through licence fees received from the water and sewerage companies and we consult annually in our Forward Programme with our stakeholders on our budgets for the upcoming year.

### 1.2 Spending controls

Ofwat's net spending is broken down into a several different spending totals, for which Parliament's approval is sought.

The spending totals which Parliament votes are:

- Resource Departmental Expenditure Limit ("**Resource DEL**")- a net limit comprising day-to-day running costs, less income from licence fees
- Capital Departmental Expenditure Limit ("**Capital DEL**")- investment in capital equipment such as ICT hardware

In addition, Parliament votes a net cash requirement, designed to cover the elements of the above budgets which require Ofwat to pay out cash in year.

### 1.3 Comparison of net spending totals sought

The table below shows how the net spending totals sought for Ofwat compares with last year:

Spending total Amounts sought this year (Main Estimate 2020-21)		Compared to final budget last year. (Supplementary Estimate 2019-20)		Compared to original budget last year (Main Estimate 2019-20)	
		£ m	%	£m	£ m
Resource DEL	£0.15m	£0.15m	0%	£0.15m	0%
Capital DEL	£0.15m	£0.22m	-32%	£0.22m	-32%

A breakdown of spending and income within the net total is shown in section 2.1.

### 1.4 Key drivers of spending changes since last year

The net Resource DEL has not changed significantly from last year.

Within this, expected licence income, and the gross expenditure this covers, are both expected to reduce from £36.5m to £31.4m (-14%). This is a result of the conclusion of activity relating to the price review whereby the organisation ramped resource capacity on a short term basis.

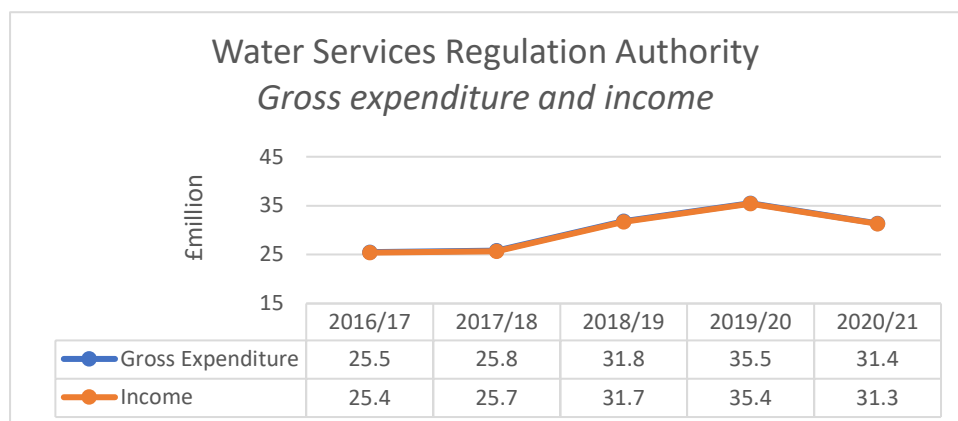

The net capital DEL proposed has reduced by 32% from last year. The £0.15 million capital budget this year is an allowance for potential capital works and IT upgrades.
