Dear Lee,

Modern Methods of Construction in Housing

Thank you for your interim response to our committee's work into modern methods of construction. We welcome your appreciative comments about our inquiry and your acknowledgement of the important questions and concerns we shared in our initial letter.

Since we wrote to you there have been further industry exits. This includes the announcement that one organisation which provided us with written evidence has filed a notice of intention to appoint administrators. Given the importance of this matter, and the need for the Government to develop a deeper understanding of the sector before setting out a clear policy position, we understand your suggestion of additional time to prepare a full response.

Please can you confirm when, ideally ahead of the Whitsun Recess, you intend to respond to our work?

Yours,

Lord Moylan
Chair, Built Environment Committee
