Thursday, 25 April 2024

Ted Colbert
Executive Vice President
President and Chief Executive Officer
Boeing Defense, Space and Security

Dear Ted,

You will be aware that the Defence Committee has an ongoing interest in the E-7 Wedgetail programme. We have recently corresponded with the Ministry of Defence regarding the programme, which has only deepened our concerns about the delays to the programme schedule.

The Committee requests that you attend a meeting to provide oral evidence on this and on other matters of interest. This would be a formal proceeding of the Committee but would be held in private.

I should be grateful if you would liaise with Committee staff to find a suitable date and time.

Kind regards,

Rt Hon Sir Jeremy Quin MP
