Dear Liam,

Thank you for your question to my Right Honourable Friend the Leader of the House at Business Questions on 25 April, regarding the proposed oral evidence session on UK Arms Exports to Israel by the Business and Trade Select Committee.

Both FCDO Ministers and I have made it clear that we would be pleased to give evidence to the Committee on this topic, though unfortunately we were unable to align both diaries to make the Committee's first requested date.

After a further exchange with your clerks about finding a date, I am pleased that we have since been able to agree a new date for the session today.

Both the Deputy Foreign Secretary and I look forward to engaging with your Committee today. I am also copying this letter to the Leader of the House.

Yours sincerely,

Alan Mak MP

Minister for Industry and Economic Security at the Department for Business and Trade and
Minister for Investment Security at the Cabinet Office
