November 2024

Dear Toby,

Enabling sustainable electrification of the economy

Thank you for your letter of 6th November regarding the Department's progress on the publication of the Government response to the EAC's report 'Enabling sustainable electrification of the economy'.

The Government recognises the urgent need for electrification of the economy, demonstrated by our commitment to our mission for clean power by 2030.

The publication of this report during the previous Parliamentary session (24th May) and the subsequent election period during the summer had temporarily interrupted the progress of the Government response. I am pleased to confirm that my Officials are working hard to finalise the response and your Committee can expect it ahead of the Christmas recess.

I am looking forward to engaging with your Committee through the publication of our response, and welcome ongoing engagement as we deliver on our mission.

Yours ever,

RT HON ED MILIBAND MP
Secretary of State for Energy Security & Net Zero
