Dear Prime Minister,

On 24 December 2024 you [wrote](#) to UK regulators, noting that it would be the intention of the Government to support every regulator to “prioritise growth” in line with the “central importance” of the growth mission.

The letter went on to ask the UK regulatory community to propose **five measurable commitments or changes** that could be implemented in the next year within a tolerable level of risk.

We write to request that the Prime Minister’s Office share the full responses to this request for information with the Liaison Committee, either prior to or concurrent with the action plan that is expected in due course. These responses will be shared with other select committees and may be subject either to publication or further follow-up work within each committee’s respective line of departmental scrutiny.

The letter to UK regulators points out that that achieving growth will require a collaborative effort, and we welcome the opportunity to assist in this task by fulfilling our role as select committees in driving informed parliamentary scrutiny of this Government’s approach to increase economic growth.

Yours sincerely,

A handwritten signature in black ink that reads "Meg Hillier".

Chair of the Committee
