Dear Dame Meg

Today, the Government is making 39 announcements as part of its Spring 2025 Tax Update.

As announced at the Spring Statement and in the Autumn, the Government is introducing a package of measures aimed at modernising and simplifying the tax and customs system and improving customer experience. These measures focus on simplification, reform and improving tax administration.

The package of measures the Government is announcing will collectively reduce administrative burdens, so businesses and individual taxpayers spend less time on tax and customs administration and more time adding value to the economy. The measures also include reforms to HMRC because a modern and effective tax and customs system is vital to create the conditions to support the PM's Plan for Change mission and support economic growth.

The list of publications and announcements can be found at [Tax Update Spring 2025](#).

Yours sincerely,
