10 September 2025

Dear Dame Angela,

We are writing in response to the letter of 1 September regarding recent developments across the department which we received from your predecessor. We welcome this update and look forward to being kept up to date in the future, including on the reformed Sustainable Farming Incentive.

Your predecessor set out various funding programmes that have been newly announced or where funding has been recently allocated, including the Farming Innovation Programme and the Landscape Recovery scheme. Could you tell us how you will be measuring the impacts of the additional funding of these schemes?

Yours sincerely,

Baroness Sheehan, Chair of the Environment and Climate Change Committee
