Dear Dame Meg and Lord Ponsonby,

SECOND SESSION DRAFT BILLS

We are writing to you, as Chairs of the Liaison Committees, to set out the Government's plans for draft bills in this parliamentary session. This is intended to enable discussions to take place as to which select or joint committees might scrutinise the draft Bills.

As announced in the King's Speech, the Government intends to publish three Bills for pre-legislative scrutiny in the second session - a draft Conversion Practices Bill, a draft Ticket Tout Ban Bill and a draft Taxi and Private Hire Vehicle Bill.

We intend to publish the draft Conversion Practices Bill before the summer recess. Your Committees previously agreed that the draft Conversion Practices Bill should be considered by a joint committee. We are, therefore, assuming that this position still stands.

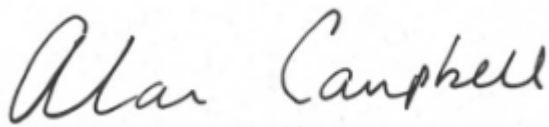

The draft Ticket Tout Ban Bill will be published later this session, although timings are not yet confirmed. We will write to you closer to the time that we intend to publish this draft Bill with confirmation. We recommend that the Culture, Media and Sport Committee and/or the Business and Trade Committee undertake pre-legislative scrutiny, noting that both have an interest in the Bill's policy.

The draft Taxi and Private Hire Vehicle Bill will also be published later this session, but timings are also not yet confirmed. Again, we will write to you closer to the time we intend to publish the draft Bill. Our recommendation is that pre-legislative scrutiny should be carried out by the Transport Committee.

We would be grateful if your Committees could consider this list and respond as to whether you agree with the Government's recommendations.

As always, it is possible that additional draft bills will be added to the list and we will update you at the earliest opportunity if that is the case. We are grateful for your consideration of this matter.

This letter is being copied to the Minister for Women and Equalities, the Minister for Creative Industries, Media and Arts, and the Minister for Local Transport, who are responsible for draft Bills outlined above.
