Section 1. Introduction

1. Supply Estimates are the means by which the Parliamentary Works Sponsor Body makes provision for its spending each year. The Main Estimates are presented to Parliament around the start of the financial year to which they relate. In addition, there is an opportunity to present a Supplementary Estimate towards the financial year end.
2. As the Sponsor Body was formally established on 8th April 2020, the Parliamentary Works Estimates Commission has responsibility for approving the Parliamentary Works Sponsor Body Main Supply Estimate for 2021-22 and also for the laying of this document before Parliament.
3. The relationship between Supply Estimates and the administrative control arrangements, and the way in which Parliament considers the Supply Estimates are described in the Central Government Supply Estimates.
4. The arrangements for the Parliamentary Works Sponsor Body Estimate broadly follows the same pattern, with the exception of adopting a Departmental Expenditure Limit equivalent (DEL equivalent) instead of a Departmental Expenditure Limit (DEL) for all expenditure.
5. The principles contained within section 7(3) of the Supply and Appropriation (Main Estimates) Act 2020 have been applied here.

2021-22 Main Supply Estimates

6. The total voted resource expenditure for which authority is sought in the 2021-22 Main Estimate for the Parliamentary Works Sponsor Body is £149.6 million resource, and £6.0 million capital.

Section 2. Summary of Resource-based Supply arrangements

1. Parliament is asked to approve the consumption of resources and capital, as well as the spending of cash, under the authority of the Parliamentary Buildings (Restoration and Renewal) Act 2019.

Structure

2. The Estimate at Section 4 is accompanied by explanatory notes containing basic information intended to put it into context, including a general description of the expenditure involved, and an explanation of the Accounting Officer's responsibilities for the Estimate.
3. The core elements of the Estimate, which consist of the sums and services to be voted in the resource-based Main Supply Estimate, are produced in three parts.

Part I

4. Part I of the Main Supply Estimate contains the following:
 - (i) the net provision in resource, capital and cash sought;
 - (ii) any amounts which have already been allocated in the Vote on Account;
 - (iii) a formal description of the services to be financed from the Estimate and the income to be used to offset gross spending (known as its Ambit); and
 - (iv) who will account for the Estimate.
5. The net resource, capital and cash expenditure limits and the Expenditure and Income ambits will be reproduced in the Supply and Appropriation (Main Estimates) Act. Together they provide the statutory authority for the expenditure.

Parts II and III

6. These sections provide a breakdown of the expenditure for which approval is sought and are accompanied by notes. The Estimate and supporting statements provide an explanation of the expenditure that the Parliamentary Works Sponsor Body proposes to finance from funds made available by Parliament.

Note A- Statement of Comprehensive Net Expenditure and Reconciliation Table show the Net Administration Costs, Total Net Operating Costs and the Total Resource Budget.

Note B- Analysis of Income provides details of the Parliamentary Works Sponsor Body income.

Note C- Analysis of Consolidated Fund Extra Receipts provide details of income that is to be paid to the Consolidated Fund.

Note D – Explanation of Accounting Officer responsibilities sets out the CEO of the Parliamentary Works Sponsor Body's relevant responsibilities as Accounting Officer.

Section 3. Parliamentary Procedure

1. Parliament's consideration of the Supply Estimates is part of its Supply procedure, by which it approves all requests for funds.
2. The process consists of several stages and full details are provided in the Central Government Supply Estimates. The Parliamentary Works Sponsor Body follows the same broad principles of this process.

Section 4. Parliamentary Works Sponsor Body Main Supply Estimate

1. This Estimate provides for expenditure relating to the activities required by the Parliamentary Works Sponsor Body to oversee the Parliamentary Building works described in section 1 of the Parliamentary Buildings (Restoration and Renewal) Act 2019 which will be carried out by a Delivery Authority (as defined in the Act).
2. The Parliamentary Works Sponsor Body Vote on Account was based on a standard 45 per cent of the funds proposed in this Estimate, as the 2020-21 Main Estimate (HC 297) was for only 3 months of operations with the approval for the full twelve months of operations deferred until the Supplementary Estimate (HC 1251).
3. As 2020-21 was the first period of the Parliamentary Works Sponsor Body's existence there is no prior year's outturn available.
