Name: Rt Hon Robert Halfon MP,
Chair Education Select Committee

By email: educom@parliament.uk

March 2022

Thank you for your letter about data coming out of the National Tutoring Programme. I share your desire to see regular and detailed information coming from the programme, both for transparency purposes and to help drive performance.

I have therefore asked for a regular, half-termly release of statistics to begin later this month, with a more detailed set of statistics being published each year. The latter will be published in August, after the end of the academic year. Together, these will help to give a picture of the programme's overall performance and the position more locally too. I hope that will be of use both to the Committee and to colleagues more generally.

I will, of course, write once again when those statistics are made available.

Sincerely

Rt Hon Nadhim Zahawi MP
Secretary of State for Education
