Respondent 1

1. On a scale from 1-10, how inclusive and accessible are UK development programmes for people with disabilities? **3**
 - a. If possible, please explain your answer.
The due diligence is so tedious and OPDs are only thought after others have received their funding
2. On a scale from 1-10, how safe do you feel when accessing UK development programmes? **3**
 - a. If possible, please explain your answer.
The programs are not accessible, they are led by Non- Disabled who lack the feel of what it means to be a person with Disability
3. If funding was not a barrier, what do you think UK development programmes should prioritise?
Meaningful engagement and commitment to work with persons with disabilities

Respondent 2

1. On a scale from 1-10, how inclusive and accessible are UK development programmes for people with disabilities? **5**
 - a. If possible, please explain your answer.
While most of the programmes are designed to be inclusive, the actual practice is that people with disabilities have to go via intermediaries -others who do not have staffers with disabilities thus no understanding of disabilities issues and this becomes a big pain in accessing those programmes
2. On a scale from 1-10, how safe do you feel when accessing UK development programmes? **6**
 - a. If possible, please explain your answer
Sometimes it can feel like a favour because of the power imbalance from the officials mandated to oversee the programmes, when there is power imbalance it means you cannot ask questions and only takes what you have been given even if it is not appropriate
3. If funding was not a barrier, what do you think UK development programmes should prioritise?
Supporting organizations of persons with disabilities directly and through few intermediaries that understand working with and have staffers who have a disability. Prioritizing employment, educational and, assistive technology, governance programmes

Respondent 3

1. On a scale from 1-10, how inclusive and accessible are UK development programmes for people with disabilities? **10**
 - a. If possible, please explain your answer.
Programmes funded by the UK government in Zimbabwe include disability inclusion. The programmes involve persons with disabilities from programme design, implementation, and evaluation. Voices of persons with disabilities who are programme participants.
2. On a scale from 1-10, how safe do you feel when accessing UK development programmes? **10**
 - a. If possible, please explain your answer.
Very safe, UK development funding considers authentic partnership in low to middle income economy especially focusing of empowerment and poverty alleviation programming.
3. If funding was not a barrier, what do you think UK development programmes should prioritise?
Education , Health , Livelihoods, Access to Justice, Disaster Risk Reduction and Climate Change.

Respondent 4

1. On a scale from 1-10, how inclusive and accessible are UK development programmes for people with disabilities? **8**
 1. If possible, please explain your answer.
The project accommodates persons with disabilities through direct targeting of persons with disabilities in communities, ensuring there are disability inclusive communication formats whenever information is distributed. Venue for community events is also considerate of the needs of persons with disabilities, persons with disabilities are also served first to enable them to travel back home on time, caregivers are supported also to enable persons with disabilities participate in project activities.
2. On a scale from 1-10, how safe do you feel when accessing UK development programmes? **8**
 1. If possible, please explain your answer
UK development programmes from a programming point of view are inclusive, flexible and adaptive to the needs of target audiences.
3. If funding was not a barrier, what do you think UK development programmes should prioritise?
Support persons with disabilities with assistive devices, facilitate access to health services in hard-to-reach areas through outreach or mobile clinics, strengthen Ministry of Health and Child Care health systems (drugs, consumables, skills and equipment).
