

**Written evidence submitted by Elsa Hardman-Clark (GRA0051)**

Elsa, 27, has MS, is unemployed. Reforming the GRA seems to work directly against the rights for women that we have been pursuing meaningfully over the last 100 years. Pretending that trans women's rights on the same as women's rights will do nothing helpful for either group. I am a young woman who does not want to see society take this turn.
