

Written evidence from Anonymous (HCS0010)

As a Carer and Independent Mental Health Advocate and Adviser with 35 years of experience in Mental Health, I can confirm those placed into 'Supported Accommodation by LA in my area are often NEGLECTED. Not sure where GPs are?

In 2015 the Guardian Newspaper contained three pages on my concerns with NEGLECT in [REDACTED] with graphic photos depicting terrible living conditions and Personal Neglect.

I was invited by the NHS Leadership Academy to talk about my 'Story' they were shocked by the Photographs.

There was no Human Rights Consideration, and I was labeled a 'vexatious' complainer, with a Statement written for my son to sign? he was very upset, hence why he contacted me.

'integration' should actually mean something, and this 'call for evidence' should reflect all those responsible for their Health & Social Care.

There is no 'joined up working' and GPs are completely outside of the 'loop'. I collect my son's medication via Text message from the Pharmacist, however I was asked if I would contact the GP to issue a further 'batch', but informed by the GP Practice his Medical Notes state 'not to speak to me'?

My other son also suffers from a Mental Illness-he lived with until he was 47 years old, his GP Practice also refused to speak to me, as authorization was not in his Medical Notes. I am his DWP Appointee and required medical information in order for me to complete forms for Benefits.

SUMMARY

There is no 'joined up of anything or 'Integration' of anything. Human Rights is not on the AGENDA of any agency responsible for the Delivery of a comprehensive system

I refer to the DWP Health & Social Care. 'Integration and Innovation: working together to improve health and social care' February 2021. The DWP proposals for a Health and Care Bill.

'The three factors that frame our proposed approach are'

The importance of shared purpose within places and systems.

The recognition of variation-some of it warranted-of form and in the potential balance of responsibilities between places and the systems they are part of:
