**Written evidence submitted by David Nicholls**

To whom it may concern

Ref – furlough scheme.

I am a 46 year male.

I have been working since I was 17 and never been out of work.

All my life I have paid tax and national insurance.

I started a new job on the 17<sup>th</sup> February and was paid on the 31<sup>st</sup> March and therefore have missed the deadline date for the furlough scheme.

I do not have a employer to go back to.

I cannot claim for any benefits

I have no savings , no money, I'll piling in and a family to support.

I find this totally unfair as a British citizen.

Please help me.
