

**Written evidence submitted by Beth Gibbons**

I am writing to back the call for Government to move the March PAYE filing deadline to April 5<sup>th</sup> when many Directors of small Ltd Companies had their annual RTI filed by their acting agent / accountant, to allow Furlough eligibility (but also to allow us to backdate our Furlough claim for the full period March-Oct) as we have been left out of the system through no fault of our own.

To date I have been excluded from both the SEISS because the Government see me as employee, even though I am a one-man band (sole director sole employee of my own under £50k Ltd company). Like many my work has dried up and I have been left to fall through the system despite being a UK taxpayer having worked for myself for the last 15 years.
