

The Scottish Govt document does not represent my views. It is unbalanced, hasn't taken any opportunities the UK may have if leaving the EU under Brexit.

I vote neither for SNP, Tories or Brexit but this document is a breathtaking piece of conflating issues in the full knowledge that its rejection will lead to further calls for Indy2. The sooner the better as Indy2 will also be rejected. - Scots do not like the current democratic deficit in Westminster but the UK gov't must head this dangerous (any form of nationalism is dangerous) SNP off. Thank you
